Professional Summary

While I've always been fascinated by the magic of coding, I initially hesitated to pursue it professionally. However, I took a leap of faith and won a full stack developer course from GoIt. Now equipped with the necessary skills, I am eager to apply my knowledge in real-world projects and gain practical experience.

TECH SKILLS

JavaScript, Node.js, React, HTML&CSS, MongoDB, Redux, REST API

LANGUAGES

English pre-intermediate

Ukrainian native

PROJECT EXPERIENCE

[Simply-Chocolad](#), [Link](#), [HTML, CSS, JS]. Website for a company that manufactures and sells chocolate. Role: developer

[Tasty-Treats](#), [Link](#), [HTML, CSS, JS]. Website where recipes of world cuisines are collected
Role: developer

[PowerPulse](#), [Link](#), [React, Redux, Axios, Styled Components, Node.js, MongoDB]. Application for fitness and diet. The database of the application contains thousands of exercises and products, which allows the registered user to choose an individual mode of activity.
Creating a MongoDB database. Back-End – end point “/diary”, for keeping a diary of training and consumed products.
